Pharmacy Services

Members can save money on their medications with access to a range of prescription drugs and pharmacies.

Prescription Drug Tiers	
TIER 0 DRUGS	These are considered **preventive medications** under the Affordable Care Act. They are usually covered at no cost to the member.
TIER 1 DRUGS	These are usually **generic medications**. They typically cost less than brand-name drugs.
TIER 2 DRUGS	Most often brand-name drugs, Tier 2 drugs are sometimes referred to as **preferred drugs**, as these cost less than other brand-name drugs.
TIER 3 DRUGS	These are most often brand-name drugs, sometimes referred to as **nonpreferred drugs**, as they usually cost more than other brand-name drugs. These drugs may have generic equivalents.
TIER 4 DRUGS	These are usually **specialty drugs** that treat complex conditions. Members tend to pay more for drugs in this tier.

COST SAVINGS

Members can get up to a 90-day supply of their medications at discounted rates with our mail-order program.

Learn More

Members can get up to a 31-day supply of specialty medications through our specialty pharmacy providers.

Specific plans feature a separate drug deductible and/or coinsurance. These plans are labeled on the grid.

Core Rx Formulary

Preventive Services

On all individual and family plans, members have access to preventive services and medications that are at no cost share to the member when he or she visits an in-network provider.

Covered services*:

- Annual physicals and well-woman visits
- Routine vaccinations (child and adult)
- Screenings for conditions such as high blood pressure, cholesterol, diabetes, and various cancers (mammograms, colonoscopies, etc.)
- Well-child visits and physicals

Covered drugs at $0 cost share:**

- Statins used for cardiovascular disease
- Tobacco cessation medications
- Contraceptives
- Routine vaccines

*The claim must be filed as a preventive visit, and the service must be identified as preventive under the ACA.
**The $0 copay applies when the preventive reason is confirmed in medications that also can be used for nonpreventive indications.
