DCN: 

We are pleased to inform you that your change of information request is approved. Listed below are your National Provider Identifier (NPI) and Provider Transaction Access Number (PTAN).

To start billing, you must use your NPI on all Medicare claim submissions. Because the PTAN is not considered a Medicare legacy identifier, do not report it as an “other” provider identification number to the National Plan and Provider Enumeration System (NPPES).

Your PTAN has been activated and will be the required authentication element for all inquiries to customer service representatives (CSRs), written inquiry units, and the interactive voice response (IVR) system. The IVR allows you to inquire about claims status, beneficiary eligibility and transaction information.

Palmetto GBA is pleased to offer secure and fast access to your Medicare information through **Palmetto GBA eServices**. Through eServices you can securely submit forms, documents and payments; receive print material/letters electronically via eDelivery; view beneficiary eligibility, claims status, online remittances and financial information and much more. Please visit our website at www.palmettogba.com to get started.

If you plan to file claims electronically, please complete the EDI enrollment application at www.palmettogba.com and submit to our EDI department.
